Advancing psychiatric practice through the science of addiction

NIDA hosts research track at APA annual meeting

The National Institute on Drug Abuse (NIDA) will present a research track at the 2016 American Psychiatric Association’s (APA’s) Annual Meeting in Atlanta, GA from May 14th through 18th. The NIDA sessions will focus on high priority areas related to substance use – including marijuana, tobacco and the prescription opioid and heroin overdose epidemic.

WHAT: NIDA research track at the 2016 American Psychiatric Association’s Annual Meeting.

WHEN: Saturday, May 14 – Wednesday, May 18, 2016

WHERE: Georgia World Congress Center
285 Andrew Young International Blvd. NW
Atlanta, GA 30313

CONTACT: If you are interested in a pre-interview with a NIDA spokesperson about the research track at APA’s Annual Meeting, please contact the NIDA press office at media@nida.nih.gov or 301-443-6245.

Highlights:

###

**About the National Institute on Drug Abuse (NIDA):** The National Institute on Drug Abuse (NIDA) is a component of the National Institutes of Health, U.S. Department of Health and Human Services. NIDA supports most of the world’s research on the health aspects of drug use and addiction. The Institute carries out a large variety of programs to inform policy, improve practice, and advance addiction science. Fact sheets on the health effects of drugs and information on NIDA research and other activities can be found at [www.drugabuse.gov](http://www.drugabuse.gov), which is now compatible with your smartphone, iPad or tablet. To order publications in English or Spanish, call NIDA’s DrugPubs research dissemination center at 1-877-NIDA-NIH or 240-645-0228 (TDD) or email requests to drugpubs@nida.nih.gov. Online ordering is available at [drugpubs.drugabuse.gov](http://drugpubs.drugabuse.gov). NIDA’s media guide can be found at [www.drugabuse.gov/publications/media-guide/dear-journalist](http://www.drugabuse.gov/publications/media-guide/dear-journalist), and its easy-to-read website can be found at [www.easyread.drugabuse.gov](http://www.easyread.drugabuse.gov). You can follow NIDA on [Twitter](https://twitter.com) and [Facebook](https://facebook.com).

**About the National Institutes of Health (NIH):** NIH, the nation’s medical research agency, includes 27 Institutes and Centers and is a component of the U.S. Department of Health and Human Services. NIH is the primary federal agency conducting and supporting basic, clinical, and translational medical research, and is investigating the causes, treatments, and cures for both common and rare diseases. For more information about NIH and its programs, visit [www.nih.gov](http://www.nih.gov).
